Course Material
Original PMBOK Guide

Enhance your career and improve your productivity by earning a Project Management Professional (PMP[®]) from the Project Management Institute, USA (PMI[®]).

There is an ever increasing demand from organizations for project leaders and staff who have obtained the Project Management Institute's Project Management Professional (PMP[®]) designation. Successful completion of your PMP[®] puts you at the top of your industry, and will open many new avenues of career growth.

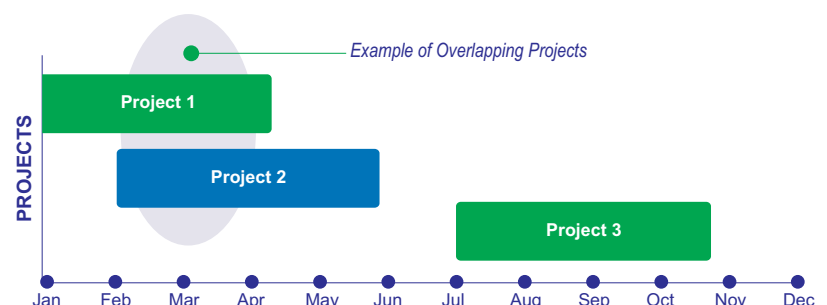

The course syllabus is based on PMI's **A Guide to Project Management Body of Knowledge (PMBOK[®])**.

A PMP Credential provides project management practitioners with a globally recognized designation that serves as the foundation from which they can competently practice as a project manager leading and directing project tasks. By obtaining the PMP Credential, project management professionals demonstrate their commitment to the profession. Further, by utilizing the state-of-the-art resources and industry networking provided by PMI, PMP certificants stay abreast of the latest trends in project management.
