

UNIVERSITY OF WISCONSIN-PLATTEVILLE

UWP...What College Should Be

UW-Platteville is one of 13 publicly supported comprehensive universities in the University of Wisconsin System. Founded in 1866, UW-Platteville (UWP) is the oldest public institution in the State of Wisconsin, and is considered one of the safest campuses in the nation. UWP's leadership in the Colleges of Business, Industry, Life Science, and Agriculture; Engineering, Mathematics, and Science; and Liberal Arts and Education helps students build on the foundation of strong values, commitment to excellence, leadership for a stronger world and a knowledge of technology which prepares them for life in the 21st century.

UW-Platteville is a modern, 820-acre campus with classrooms and laboratories furnished with state-of-the-art equipment and computers. The university operates over 60 Linux, VAX, Alpha, Windows and Netware servers in its core system to handle electronic mail, Wide Area Network (WAN) and Internet access, student and academic accounts, and administrative computing needs.

The recently expanded Williams Fieldhouse is equipped with a 200-meter track, four basketball courts, six volleyball courts, four doubles and two singles tennis courts, four racquetball courts and 12 badminton courts. A 4,300 square foot strength facility includes free weights, universal machines, aerobic training bikes and stair masters. The Fieldhouse is also home to Pioneer athletic competitions.

The Center for the Arts includes a 565-seat concert hall with excellent acoustics, a 210-flexible seat theater, rehearsal halls, faculty studios and numerous practice rooms. The center is also home of the award-winning Student Activities Board Performing Arts Series and the Heartland Festival.

UWP also has facilities which can transmit or receive full motion or compressed video to or from anywhere in the world. One facility, a permanent distance education classroom in Ottensman Hall, is used primarily by the College of Engineering, Mathematics and Science, and another is used within Pioneer Tower by the College of Business, Industry, Life Science and Agriculture. A third facility is at the Pioneer Farm.

UW-Platteville is accredited by:

- [The Higher Learning Commission](#)
- Accreditation Board for Engineering and Technology
- American Chemical Society
- National Association of Industrial Technology
- National Association of Schools of Music
- National Council for the Accreditation of Teacher Education
